

# ELEMENTARY

Eye Productions, Inc  
34-02 Starr Avenue, 2<sup>nd</sup> Floor  
Long Island City, NY 11101

Dear Resident,

Eye Productions, Inc. in conjunction with CBS Television is in production for the seventh season of the CBS television series, **ELEMENTARY**. The show is a contemporary take on Sir Arthur Conan Doyle's classic Sherlock Holmes tales set in modern day New York City. It stars Johnny Lee Miller (**Trainspotting, Dark Shadows**) as Sherlock Holmes, and Lucy Liu (**Charlie's Angels, Kill Bill**) as Watson.

On Friday, December 7, 2018, we will be filming scenes for an upcoming episode on the **TRENTON MAKES BRIDGE**. This work will involve shutting down the bridge from approximately **8 PM to 6 AM**. We will also close traffic on Bridge Street from Delmorr Ave for stunt driving work involving NYPD patrol cars. Residents of Park and Central Ave will be able to enter and exit with assistance from the Morrisville Police Department.

We will be parking some of our equipment trucks on the East Side of Park Avenue. We ask residents of Park Avenue to please park all vehicles in your driveways to allow traffic to flow smoothly. Our remaining vehicles will be in a parking lot nearby.

On Thursday December 6<sup>th</sup> we will be conducting preparatory work between the hours of 7AM and 7PM, This will not affect or obstruct the flow of traffic on Bridge St, or the Bridge itself. Additionally, after filming is complete, the streets will be open to normal traffic, however our crew will work through the day to remove our equipment.

As guests in your neighborhood, we will make every effort to be respectful of the daily routine of the community. If you have any questions, special needs or concerns, please feel free to call our Locations Department representative for the location at 203-725-7000.

Please note that we will obtain all necessary permits from the Borough Manager of Morrisville and we will work with the assistance of the Morrisville Police Department.

Thank you,

Jon Pater  
Locations Department.
