UPDATE

*Response Message received 2/8/24 from:
Rosemary Wuenschel, Chief of Staff,
Pennsylvania State Senator Steve Santarsiero*

PECO has repaired 3 leaks on Pennsylvania Ave. in the past two years. There is nothing noteworthy. The leaks were repaired and we are not venting gas at any location. We completed our base road restoration in the vicinity of 714 S. Pennsylvania Ave.. Final restoration (mill and overlay) should be completed within the next 30-45 days per our standard practice.
